name=286)

Week 0: Assignment 0

Assignment not submitted

1) **1 point**

Which of the following allows us to identify objects and extract information?

- a. RFID
- b. Sensors
- c. Actuators
- d. IoT Nodes
- a.
- Ob.
- Ос.
- Od.
- 2) How many layers does Zigbee consist of?
 - a.
 - b. 2
 - c. 3
 - d. 4
 - Оа.
 - Ob.
 - Ос.
 - b 🔵

3) 1 point

1 point

Which of the following is not a component of cloud computing? a. Clients	
b. Local Servers	
c. Services	
d. Applications	
○ a.	
o b.	
○ c .	
○ d.	
4) 1	point
Which of the following is a distance measuring sensor module?	μοιιιτ
a. DHT22	
b. HC-SR04	
c. TSL2591	
d. HC-SR505	
○ a.	
◎ b.	
○ c.	
○ d.	
5)	point
Which of the following is a component in a typical sensor network?	point
ACCURATION ASSOCIATION OF THE PROPERTY OF THE	point
Which of the following is a component in a typical sensor network?	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these a. b. c. d. Which of the following sensors are responsible for measuring orientation and angular velocity a. Accelerometer b. GPS c. Temperature d. None of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these a. Ob. c. d. c. d. Which of the following sensors are responsible for measuring orientation and angular velocity a. Accelerometer b. GPS c. Temperature d. None of these	point
Which of the following is a component in a typical sensor network? a. Sink b. Gateway c. Router d. All of these a. b. c. d. Which of the following sensors are responsible for measuring orientation and angular velocity a. Accelerometer b. GPS c. Temperature d. None of these	point

od. 7) "ISA 100.11A" is a wireless networking technology standard. ISA stands for a. International Society of Automation b. International Society of Advancement c. Industrial Society of Automation d. Industrial Society of Advancement
a.b.c.d.
Which of the following is not a difference between traditional data center and cloud computing? a. Scalability b. Flexibility c. Elasticity d. Storage
○ a.○ b.○ c.● d.
9) Smart grid is also known as the energy internet. a. True b. False
● a.○ b.
10) Can a point of node failure result in the partition of the network in the stationary sensor network? a. Yes b. No
a.b.
